

## Uploading a video to a child's profile

Uploading a video to a child's profile is a similar process to uploading a photo. Important to note however is that only one video can be added, and the maximum file size allowed is 500mb.

1. Sign into Link Maker and go to your cases page. Click to the adoption profile tab and click on 'View/Edit profile' as shown below.

4. Tick the boxes shown below to indicate that the video does not contain any identifiable features and then choose the files to upload from your computer by clicking 'open'.

Lastly, click 'Upload video'. The video will begin to upload. When it is fully finished uploading click 'done.'

Please make sure that any speech is not identifying (eg. names, school, address), and that you have cleared copyright for any music used. The maximum file size that you can upload is 500 MB.

**Before you upload any videos please tick below to confirm that these include:**

- No identifying elements, such as school logos, street names, or photographs in the background \*
- Nothing that identifies the photographer or film-maker \*
- Nobody other than the child or children in the profile, without their permission \*
- No nudity \*
